Solidarity Message:

Greetings to the Egyptian People

KAISAKA, a transformational multi-sector women's organization in the Philippines, congratulates the Egyptian people for their heroic and victorious unprecedented 18-day uprising that toppled their three-decades-old dictator. We have nothing but admiration for the people's tenacity and united determination.

We are greatly inspired by the vigorous participation of women who persisted side by side with the men in the fight for democracy. They have surely won greater respect in their own country, in the whole Arab world and around the globe. Through their significant participation in the national struggle, they have surely advanced gender equality.

As we pursue our own fight and genuine democracy, freedom from US domination and genuine emancipation of women, we stand in solidarity with the Egyptian people as they pursue to further social change in their country.

Atty. Virginia Suarez-Pinlac
National Chairperson
